

saying you are very welcome here Roshen Lemir who
of my acquaintance in the world can this be thought
I quite surprized who can it be that knows my
Name so well Most venerable father said If
I may be allowed to enquire how come you
to know my Name That said he I know
by Gods good favour This scorpion which
you have killed has yet another companion
which is at present sitting on her eggs and
will come forth at the end of six months
It is therefore absolutely necessary for you
to return hither at the end of that period
so take care that you do not forget for if
you do be assured that wherever you are
this serpent will find you out and devour
you for looke you this female scorpion has
killed the companion of the snake and
forcibly possessed itself of her residence
Two young snakes have however escaped
and are concealed by my care and if it
please God at your return I will introduce
them to you That serpent has every day
made sings to me to kill the scorpion but
I told it that its death did not be at my
door
